

## HELD AS YEGGS AFTER CAPTURE IN BROADWAY OFFICE

Two Members of Trio Found  
in Western Union Branch  
Knocked Out by Police.

Patrolman Stegman of the Elizabeth Street Station knocked out two men he found after forcing the door of the Western Union office at No. 302 Broadway, about midnight, and took them, with another caught outside, to the station, where they were charged with burglary.

Stegman was making his rounds, and as he passed the office he noticed that the company's safe was not in its usual place. He walked a little distance up the street, rapped until a policeman from another patrol came on the run and returned to the place. Stegman's companion seized William Santasiero, seventeen, a clerk, No. 153 Summerfield Street, the alleged "lookout."

Forcing the door, Stegman ran to the back of the office, where the other men were preparing to flee. He blocked them with two hefty cracks with his stick. These men gave their names as John Stuart, thirty-nine, a Western Union telegrapher, No. 213 West 106th Street, and James Brackley, twenty-eight, a machinist, No. 484 East 134th Street. Patrolman Stegman said he found their hats and coats on the floor with part of a "jimmy" and a brace and bit. A key was used in entering the office.

## BELGE SEEKS TRADE THAT GERMANY HAD

Line Has Fifty Ships in Service and  
Is Out for Big  
Expansion.

The purchase of fifty merchant ships and the beginning of a campaign for the replacement of German navigation companies with Belgian ones, were announced yesterday by Joseph A. Nash, American manager of the Lloyd Royal Belge. The actual number of ships bought is greater, but several are still on the ways in British shipyards and the number in service is exactly fifty, with an aggregate tonnage of 304,000.

Mr. Nash said that the purchase was the first step in the expansion of the Belgian trade. He emphasized the fact that the Lloyd Royal Belge does not aim to compete with the navigation of Allied countries, but simply to gain some of the trade previously controlled by Germans. Thus far, the company has established service between Antwerp and several American ports and has begun operations in India, where it hopes to replace the Hanna service, and in Argentina, where it expects to gain trade previously in the hands of the North German Lloyd.

These charming  
knit wool wraps  
Specially  
purchased } \$22.50

Originally they cost \$35 wholesale

The story is this: Earlier in the season we bought these wraps at \$35 wholesale. Every one was charmed with them, but they were rather expensive. Then we had others made to look like them—but not quite as fine—and these we sold at about \$35 retail.

Today, through the manufacturer's overproduction and desire to make room for imports, we have been able to get the original finer ones to sell at \$22.50.

The wrap illustrated is all snowy-white knitted wool with a huge brushed wool collar that crosses surprise-wise and fastens in back at the waistline.

It's a snug little wrap for motoring, for the seashore—in fact, for all sorts of sports. In other color-combinations, too. Dark blue, white collar; turquoise blue and all-white.
